

Expenditure on services provided by companies in which Trust Directors have an Interest

The Elliot Foundation is a start up charity without millionaire sponsor or commercial backer

In its first 18 months TEF could not afford to pay full time salaries, so founding directors worked as consultants at discounted rates. They also donated work and deferred payment

Further details can be found in previous FOI release on Elliot Foundation funding released in April 2013

As of September 2013 the majority of TEF staff are employed on a PAYE basis

Subject to our continued success it is our intention that all directors will be employees of the Elliot Foundation by Jan 2014
